

Steam Pro Industrial

The ultimate industrial steam cleaner.

The SteamPro Industrial is the most powerful, custom-built industrial steam cleaner, offering unmatched steam production, durability and performance. Deep-clean, degrease and sanitize any surface or production equipment, including conveyor belts and hard-to-clean machinery, using the power of superheated low-moisture steam.

The SteamPro Industrial promptly becomes your essential problem-solving and time-saving solution – wherever you choose to use it. We offer the industry's only two year warranty on our SteamPro Industrial Max and Ultra steam cleaner on the mechanical components of your unit.

Unlike our competition, our entire boiler and casing is made from Food Grade Stainless Steel which provides you a superior product at the best price, allowing you to maximize your ROI and cut down your cleaning costs and water consumption.

Compare our Two Models

SteamPro Max

SteamPro Ultra

Steam Production	89 lbs./hr.	180 lbs./hr.
Steam Temperature	392°F / 200°C	413°F / 212°C
Steam Pressure	10 bar / 150 psi	12 bar / 175 psi
Boiler Capacity	6.6 gal / 25 l	15.3 gal / 58 l
Water Tank Capacity	9 gal / 34 l	20 gal / 75 l
Tip Temperature	245°F / 118°C	260°F / 127°C
Dimensions	41" L X 31" W X 49" H	53.5" L X 35" W X 57" H
Weight	249kg / 550 lbs	408kg / 900 lbs

The SteamPro Industrial Ultra is the powerhouse behind the conveyor belt cleaning system. A strong jet of steam comes out through the conveyor belt cleaning unit to efficiently break down dirt, grime, and grease as the belt passes through the powerful steam jet. You are effectively cleaning and sanitizing your conveyor belt in one step. It also removes food allergens such as Soy, Milk, Eggs, Tree Nuts, Peanuts, Wheat. A powerful vacuum removes any leftover dust, food residue, grease, or dirt and dries up the surface of the belt at the same time leaving it clean, dry, and ready to use.

Some of the benefits of our system are:

- Superheated Dry Vapor Steam
- Continuous Steam Technology
- Stainless Steel Boiler
- Perfect Level Control
- Self-Cleaning Boiler System
- Replacable Heating Elements
- Pure Disinfection
- Automatic Shut-Off and a Variety of Safety features

Dual-Operator Option Available

The SteamPro Industrial Ultra can be transformed into a Dual-Operator system, allowing you to utilize two steam hoses and steam guns to double your efficiency. The steam volume produced can properly support the use of two operators simultaneously. Unlike competitors models that require you to use a 60kW machine or higher to achieve the same results – the SteamPro Industrial Ultra outperforms the competition and provide you the best value.

Applications

Benefits

Removes Grease and Adhesives.

98%

Reduction in Water Usage and Waste Water (per hour of use).

Clean, Degrease and Sanitize All Conveyor Belts.

0

Liters of chemical required. Kills 99,9% of bacteria, allergens & viruses.

Bottling Lines, Vats and Oak Barrel Swelling.

70%

Time saved in regular sanitization shifts.

Equipment Maintenance and Restoration.

12

Months needed to see Return on your Investment.
