

# Steam Pro Lite

The SteamPro Lite promptly becomes your essential problem-solving and time-saving solution – wherever you choose to use it. Productivity gains are made possible using high-performance, low-maintenance steam cleaning equipment. The SteamPro Lite is simply put, a powerful single-phase steam cleaner on the market, featuring a fully stainless steel casing. Producing superheated dry steam at up to 347°F / 175°C and pressure of up to 130 psi / 9 bar, the SteamPro Lite is engineered to leave the competition behind.

The SteamPro Lite is the perfect machine for smaller operations such as micro and craft breweries, wineries and light industrial cleaning applications.
